EDUCATION

The University of Texas at El Paso- Bachelor of Science in **Computer Science** Anticipated: 05/2027
Awards: AP® Scholar Award, UTEP **Honors** Program, SHPE scholarship GPA: 3.33
Technical Certifications: Google IT Support Specialist, AWS Cloud Computing Badge, Java IT Specialist Programming Certification
Competitions: **DELL** Tech Academy 1st place out of 115 students, Great Minds in STEM Hackathon, **Bloomberg** Tech Lab, EPCC Datathon

EXPERIENCE

Computer Science Technician –*University of Texas at El Paso* 01/2025 – 06/2025

- Provided technical support to **100+ faculty, staff and students**, troubleshooting hardware, software, operating system, and peripheral issues to ensure reliable day-to-day operations.
- Assisted with the setup, configuration, maintenance, inventory management, and deployment of **50+ computer systems**, including OS cloning and imaging to streamline workstation preparation.

Server Test Technician - *Wiwynn* 06/2026 – 08/2026

- Executed **L11 Server Rack Validation** by managing intake, scanning, and tracking of high-density **AI server racks** containing up to **20 L10 blades**, maintaining accurate inventory and system traceability.
- Conducted **Diagnostic Overstress Testing on L10 blades** using specialized hardware testing scripts, identifying component-level failures and hardware errors under peak workloads prior to deployment.

PROJECTS

Home-lab DevOps 01/2024- 12/2025

- Built a self-hosted ecosystem achieving digital independence from Big Tech by deploying **OpenWebUI** and **LM Studio** for local and international AI access, integrating a legacy **2000s printer** with modern **Wi-Fi AirPrint**, and transitioning to **Nextcloud** for file storage, **Immich** for photo management, **Navidrome** for music streaming, and Invidious for video playback. Implemented **Vaultwarden** for credentials, **Pi-hole** for encrypted **DNS** and ad-blocking, and **Uptime Kuma** to monitor service uptime.

Home-lab Cybersecurity 01/2026- Current

- Built a secure infrastructure focusing on encrypted remote access and perimeter defense utilizing **Tailscale** for secure mesh networking and **Pi-hole for DNS-level encryption**. Deployed **Vaultwarden** for password management and **Moxy proxy** to perform penetration testing and security auditing on self-hosted web applications. Used **OSINT** tools and my AI to automate looking for people and places.

LEADERSHIP

Dell Tech Academy 1st Place; University of Texas at El Paso 02/2025

- Secured **1st Place** by developing and presenting an enterprise-focused technology solution in collaboration with **Dell Technologies** professionals, addressing real-world **IT challenges**.
- Demonstrated technical leadership, problem solving, and communication skills by delivering a polished solution and presentation to industry executives while aligning the project with enterprise IT standards.

Second Chair Cellist Orquesta Sinfónica Esperanza Azteca 01/2017 – 08/2025

- Performed at the **Mexican Cultural Institute in Washington, D.C.**, while collaborating with **New Mexico State University** on a social initiative focused on reducing barriers between education and affordability.
- Strengthened multitasking, time management, teamwork, and adaptability by balancing responsibilities and performing effectively in fast-paced, high-pressure environments.
